

UT Chemistry Department Seminars Spring Semester 2004

Unless otherwise noted, seminars take place at 3:40 pm in Buehler 415. Refreshments will be served at 3:30 pm in Buehler 412.

Special seminars are scheduled for Feb. 19, Feb. 25, and Apr. 1.

This list was last updated on February 23, 2004.

Date	Speaker	Faculty Host
Jan. 15	T. B. von Hohenheim University of Basel “New insight into chemical mysteries”	Dr. Schell
Feb. 5	David Clemmer Indiana University “New mass-spectrometry-based technologies in the ‘omics revolution”	Dr. Kheterpal
Feb. 12	Huw Davies University of Buffalo “Catalytic asymmetric C–H activation: synthetic applications”	Dr. Zhang
Feb. 19	Myriam Sarachick City University of New York “Quantum tunneling of the magnetization in molecular nanomagnets” This <i>special seminar</i> opens the 2004 Chemical Physics symposium.	Dr. Compton and Dr. Musfeldt
Feb. 25	Paul Lahti University of Massachusetts “Designing exchange interactions in molecular magnetic materials: H-bonded materials and coordinated nitroxides” This <i>special seminar</i> will take place at 2:30 pm in Buehler 511.	Dr. Musfeldt
Feb. 26	Tom Mallouk Pennsylvania State University “Building block approaches to mesoscopic materials”	Dr. Barnes
Mar. 18	Ruth Lynden-Bell (Haines-Morris Lecturer) Cambridge University “A close-up view of molecules in solution”	Dr. Larese

Date	Speaker	Faculty Host
Apr. 1	Greg Tschumper University of Mississippi The title, time, and place of this <i>special seminar</i> will be announced later.	Dr. Harrison
Apr. 8	Ged Parkin Columbia University Title to be announced	Dr. Turner
Apr. 15	David Gin University of Illinois Title to be announced	Dr. Baker
Apr. 22	Michael Klein (Haines-Morris Lecturer) University of Pennsylvania Title to be announced	Dr. Hinde and Dr. Larese
Apr. 29	Honors Day
